

The Gold Brick and Green Goods Swindlers Haven't Disappeared. They Are Now Either Selling Oil Stock Or Working For the Government

SUNDAY SCHOOL  
CONVENTION ENDS  
ANNUAL SESSIONSSuccessful State Gathering Held  
In Bennington

150 DELEGATES WERE HERE

Interesting Sessions, Able Speakers  
and Plans Proposed for  
Work of the Future

The 53d annual convention of the Vermont Sunday School convention closed Sunday evening. About a hundred and fifty delegates attended the different sessions of the gathering, a smaller number than was expected, but sufficiently large to successfully carry out the work of the convention. The attendance would undoubtedly have been much larger but for the fact that the annual Vermont Christian Endeavor convention was in session in Brattleboro last week.

As no announcement was made concerning the time and place for the next state convention it is presumed that this decision was left to the executive committee.

The service of worship at the opening of the various sessions has been led by Earle E. Chase of the Y. M. C. A., who appears to have the necessary "pep" for getting the people to sing with expression.

W. B. Oliver, president of World's Morning Watch, gave the scripture-interpretation "Handling Aright the Word." He referred to a personal conversation between St. Paul and Timothy.

His advice to teachers and to young people may be summed up as follows: "Focus your attention upon some one thing and then strive to be the best in the world, the best teacher, the best superintendent, best parents, etc."

He especially stressed the pocket Testament League. We need to know our word of the spirit. There is too much of the guess so, think so, perhaps, or possibly, variety of teaching. Conviction is the great need of today. We must drop our denominational differences. I defy any one to go through this or any other audience and pick out the Congregationalists, Baptists, Episcopalians or Methodists. We all need to study that we may be able to handle the word of God afloat.

The next speaker was Herbert W. Gates, D. D., of Boston, whose theme was "Training World Christians." He said this world has become so small that we cannot afford to ignore what has happened or is happening on the other side. The world war has galvanized this whole world into new life among the nations. We must save the world point of view, rather than the disgusting narrow vision of simply "Americanism." What is the spirit of missions, but the spirit of Jesus Christ in the world. He said to the early disciples, "You wait here at Jerusalem, until the spirit of God comes upon you and then be witnesses." They were then found to witness.

A missionary program means more than passing a plate around to raise a little money. The sooner we get away from this money idea the better and learn the true spirit of missions. Teach the children to earn their money. Let it be their own gift, and not one begged from father. The only way to get away from the drives and schemes is to stand back of a great Christian enterprise that is world wide. The children must be taught that the little ones—no matter what color they are—are all of God's great family and have similar needs and feelings. The spirit of helpfulness that doesn't begin at home doesn't get very far.

He believed every person who accepted money from a child should give a report of where it went and what it was used for. This will develop intelligent givers. Regarding prayer, he said a lot of people pray all over the lot instead of praying for definite things, and for people by name, those of your family your pupils, your missionary and your pastor. If we really understood prayer better, there wouldn't be so much prayer talk, and teasing of God for personal blessings.

The next speaker was O. C. Brown, D. D., of Philadelphia, who urged definite prayer for those who are selected for state leaders for the coming year. He said the greatest temptation to give up a hard problem is before you have arrived at your best. We must not cease to study and grow. Use your talent and it will grow. Usefulness is his reward. The deepest and most worth while joy in this whole world is to feel that you are needed somewhere by somebody. It's a great thing to grow old feeling or knowing that you have inspired others to higher living.

John L. Alexander of Chicago was the speaker at the Young People's division. He gave many valuable hints to teachers of those between 12 and 20 years. He asked: "What is the difference between a boy or girl today and when he or she becomes a Christian?" The answer was in both cases, "he will play, eat, sleep work and go to school, but he will do these things in the Jesus way, because a new spirit has come into his or her life." The vision will widen from self to family, school community, state, nation and the world. The life has been changed from center to cir-

FIRST SNOW HERE  
THIS YEAR AHEAD  
OF JACK FROST

Unusual Feature of This Unusual Season

SNOWFALL ON MOUNTAIN

Six Inches of Snow at High Points in Woodford and Glastenbury Sunday

Snow arrived in Bennington and vicinity this fall ahead of frost which is a most unusual happening, and marks the close of a most unusual summer.

Several times Sunday there were snowflakes in the air on the hills around Bennington and in the mountains east of here there was a fall estimate of six inches although most of it melted as nearly as fast as it fell. Hunters who visited the higher ridges found three or four inches of snow at certain points.

North, west and east of here the snowfall was considerably greater and up the state the mountains were blanketed with white as late as this morning. Snow has fallen today but not in any quantity, according to reports received.

The strange thing about it is that in Bennington, at least, there has not yet been a frost this fall. Even the most delicate flowers and plants are not touched. This is the second year in succession that frost has held off as late as this year. There was no frost until the 15th of October, except a slight touch in some of the mountain valleys in August.

Gloversville, Oct. 9.—The first snowfall of the year was noted this morning at Canada Lake, 14 miles northwest of this city. Snow fell for half an hour.

Bangor, Me., Oct. 9.—Motorists arriving here tonight from Acrostook County reported a brisk snow storm in northern Maine today. The fall at Bangor and nearby towns was more than six inches.

Glens Falls, Oct. 9.—The first freezing temperature of the season was reported tonight from the Adirondacks and snow was reported to have fallen to a depth of three inches on the mountains near Port Henry.

Glens Falls, Oct. 9.—The first freezing temperature of the season was reported tonight from the Adirondacks and snow was reported to have fallen to a depth of three inches on the mountains near Port Henry.

HAS CAUGHT FOUR  
BEAVER TO START  
VERMONT COLONYNovel Venture Being Carried  
out by E. D. Moore

NOW IN OLD FORGE WOODS

Plan Being Carried out under  
Direction of Commissioner Sheldon

A telegram was received here this morning from E. D. Moore announcing that he had succeeded in capturing four beaver with which it is proposed to start a colony of these interesting animals in Vermont. The telegram stated that Mr. Moore had secured two adult and two yearling specimens.

Mr. Moore left Bennington a week ago Wednesday under instructions from State Fish and Game Commissioner H. P. Sheldon. A permit had previously been received from the Conservation commission in New York to take six beaver. Mr. Moore, a former Bennington county fish and game warden, had already been corresponding with parties in New York state and had selected as the most favorable locality for operations the town of Old Forge, in Herkimer county.

This morning G. P. Endress received a letter from Mr. Moore describing the capture of the first beaver which weighed about seventy pounds. Mr. Moore wrote that there are any number of beaver in the vicinity of Old Forge but that catching them was an other matter. With an old trapper with whom he had communicated before leaving Bennington, Mr. Moore is camped on the north branch of the Moose river. He has seen mink, otter, deer, eagles and ducks by the hundreds.

The first beaver colony in Vermont will probably be established in Bennington county. Before making his final plans Mr. Moore had investigated and had about reached a decision to release the beaver in the vicinity of Stamford meadows.

## THOUSAND DOLLAR DRAFT GONE

Alleged to Have Been Stolen from  
Switchman's Shanty in Dorset.

Rutland, October 10.—The whereabouts of "Rocky" Campton, aged 17 years, and William Larkey, aged 22 years, for whom the sheriffs of Rutland and Bennington counties and the railroad police have been looking for the past two days, remained a mystery at a late hour last evening. Several clues have been run down by Sheriff J. D. Purdy of Manchester and Railroad Chief of Police J. R. Wilson and his assistant, Orrin R. Packard of this city, but they have all proved fruitless.

The young men are alleged to have stolen \$1000 worth of foreign drafts, four pairs of shoes, a revolver, shotgun and two flashlights from a switchman's shanty at East Dorset last Friday. The money belonged to an Italian laborer who had exchanged cash for the drafts preparatory to sending the money to Italy.

Larkey, who has lived at different times in East Dorset, is suspected because he is alleged to have remarked the night before the theft that he was going to get out of town. He is also alleged to have said that he did not have any money but knew where he could get some.

Officers in all parts of the state have been notified to be on the lookout for the young men. Campton is described as of smooth face and medium size. He wore a brown suit and gray cap. Larkey is medium sized and wore a dark slouch hat and green and gray suit.

SUNDAY'S GAME WAS  
VICTORY FOR GIANTSBabe Ruth Was in the Game and  
Made A Home Run, But  
It Didn't Help.

New York, October 10.—"Babe" Ruth made a home run at the Polo Grounds Sunday, but his circuit ball, a tremendous wallop into the right field bleachers, came in the ninth inning with nobody on the bases and failed to save the Yankees from defeat in the fourth game of the world's series.

The Giants won by the score of 4 to 3, evening up the count for the series, which now stands at two victories each.

The game, a snappy, quickly played contest, was witnessed by more than 35,000 persons, a few hundred less than the record crowd of last Friday. For seven innings it looked like a repetition of last Wednesday's pitcher's battle between Carl Mays and Phil Donaghy, these two twirlers again being pitted against one another. Then, in the eighth inning, the Giants broke through Mays' guard and scored three runs—enough to win by a pretty exhibition of consecutive batting.

The Giants added another, but as it turned out unnecessary run in the ninth. The Yankees were able to hit Douglas consecutively only in the fifth, when they scored once, their other tally being accounted for by Ruth with his ninth-inning blow into the bleachers.

That the "Babe" appeared in the game at all was a big surprise to the fans. It had been feared his injured arm would keep him out of the play for the remainder of the series, and even Manager Miller Huggins of the Yankees did not expect, up to an hour before game time, that Ruth would be in the lineup, announcing that "Chick" Fewster would take his place in left field. It developed, however, that Ruth, determined to play, had had his arm well plastered up, and shortly after 1:30 o'clock he came on the field in uniform, and to all appearances fit to play.

The sight of the "Bambino's" bulky figure drew forth a big shout of welcome from the crowd, which was repeated many fold when he made his circuit clout in the ninth. He handled his two fielding chances cleanly. There was nothing in his work at the bat to indicate that his injured arm was handicapping him in the least. He did not, however, try to steal any more bases.

FRANCE TO STAY  
ARMED SO LONG  
AS THREATENED

Premier Briand Talks on Disarmament Question

MUST MAINTAIN SECURITY

Will Be Glad to Reduce Armament if Peace Can Be Guaranteed

St. Nazaire, France, Oct. 9.—(By The Associated Press)—"France must remain armed as long as her security has not been assured," was the statement made today by Aristide Briand, the French premier, in an address before the French parliament. He declared that at the present moment the French premier needs to have full authority to deal with all questions with which he treats in the realm of world interest.

Mr. Briand continued:

"My voice must carry high and far. Tomorrow beyond seas we are invited to examine into certain problems to which 'Present' to that invitation. We shall go to Washington first in order to fulfill a duty of gratitude and to see in their home those noble and brave soldiers whom we have seen in France. We will go also to accomplish a duty toward France."

"France must remain armed as long as her security has not been secured. France has earned the right to reparations and security. At no time shall the French government yield on those points. I will refuse the accusations of imperialism which have made France. Our allies know that we demand our rights—nothing more. Tomorrow at Washington I will prove to the Americans that France wants peace."

"We will discuss the great problems of the day coolly and impartially. If guarantees of security are granted France, she will be among the first nations to enter into the policy of disarmament for France loathes war and imperialism."

"This government has confidence in the government of Dr. Wirth (the German chancellor). The undertakings entered upon by the
